

Special Dispatch to the N. Y. Daily Times.  
The President at Home—Cabinet Meeting—Naval—Frigate to Sail—Kansas.

WASHINGTON, Thursday, Aug. 13.  
The President arrived home, yesterday, in remarkable health. In consequence of the accumulation of affairs since his absence, an informal meeting of the Cabinet was held immediately. Domestic affairs only were considered. In regular meeting of the Cabinet, tomorrow, the affairs of Granada, Venezuela, and the Mexican Tehuantepec Transit will come up and be acted on.

The Secretary of the Navy is preparing his official business so as to make a tour of visits to the Navy Yards this fall.

The steam frigate Mississippi, now at New York, is ordered to sail for the Pacific some time during next week.

The Merrimack, at Boston, destined for China, is nearly ready for sea. Advice from Kansas state that Gov. Walker had received peaceful overtures from the people of Lawrence, and that a reconciliation was confidently expected. Gov. Walker's force consists of six companies of dragoons, one company of infantry, and one company of flying artillery—in all about 600 men.

#### From Kansas.

St. Louis, August 14.—The Kansas correspondent of the Democrat says that Judge Cato has just published an opinion on the payment of taxes, that it is essential, preliminary to the right of voting.

The Sheriff of Douglas county has given notice of his intention to collect taxes.

Rumor says that Lane, Robinson, Phillips, Conway, Blood, and others, have been indicted by the Grand Jury at Leecompton.

In a speech at Osawakee, on the 5th inst., Lane announced an organization of eleven thousand men to protect the polls in October, and stated that the number would be increased to twenty-five thousand.

#### From the Plains.

St. Louis, Aug. 15.—Advice from Fort Kearney state that a party of nineteen drovers, in charge of upward of eight hundred cattle, destined for the Utah expedition, had been attacked, twenty-seven miles above the Fort, on the 1st inst., by one hundred and fifty Cheyennes. All the cattle and twenty mules were run off, and one man killed and another severely wounded.—Three Indians were slain.

Colonel Sumner had started in pursuit.

#### Information Wanted.

Of ALBERT ENYARD, who left his home in Chillicothe, on Wednesday afternoon, August 5th, 1857. He had on a white linen coat, dark vest, light pants, straw hat, and shoes about twenty-four years of age, hard of hearing, and subject to fits of epilepsy.

Any information concerning him can be left at the clothing store of the undersigned. When last heard from, he was at Bainbridge, Ohio, on his way westward.

#### Missouri Election.

St. Louis, August 17.—The official returns from eighty counties, and the reported vote of twenty-three counties, reduce Rollins' majority to such an extent that it will require the official returns to determine the result.

Chapman, Democrat, is elected to Congress, from Nebraska.

Collision on Long Island Sound—Thirteen Lives Lost.

New York, August 15.—A collision occurred on the Sound early this morning between the steamer Metropolis, of the Fall River Line, and the propeller, S. N. Harris, hence for New London.

The Harris sunk almost immediately, carrying down thirteen of her passengers and the crew.

Twelve of the twenty-five persons on board were all that were saved. Among the saved are Capt. Smith of the propeller, the engineer, and four of the crew.

The Metropolis lay by until daylight, in the hope of rescuing others, but saw nothing.

The accident occurred in consequence of the pilot of the Metropolis mistaking the Harris for a schooner, from her having her sails set, and showing no head-light.

#### Later from California.

New York, Aug. 13.  
The steamship Central America, from Aspinwall, with dates from California to the 20th ult., has arrived here.

The Central America brings \$1,250,000 in specie.

The mining news is favorable, and the agricultural prospects throughout the State were good.

The California Democratic Convention had nominated Hon. J. B. Weller for Governor, and the Republican Convention Edward Stanley as a candidate for the same office.

The markets continued depressed, and it was believed that nothing but a suspension of shipments for two or three months will restore confidence.

From Oregon we learn that the official majority in the June election, in favor of a Convention to form a State Constitution, was 5,938.

The British ship Walton Munster had been lost near Caldera, with the captain's wife and sixteen of the crew.

A large and destructive fire had occurred at Valparaiso.

A battle had been fought near Arequipa, between Generals Vivanco and Castillo, both of whom claimed the victory. There has been another attempt at revolution made at Callao.

THE CROPS IN EUROPE.—The latest advices from Europe are to the effect that the crops in all parts of Continental Europe promise a rich harvest, and that Breadstuffs are declining everywhere. In some parts of Germany, farmers have already begun to harvest their rye crops, and bread made of new rye flour was in general use, and pronounced of good quality.

A correspondent of the Boston Traveller writes from London that Mr. Sumner's health continued to improve. He dined on the 1st of July with the Benchers of the Inner Temple, and made a short speech.

For Local News and Markets see Third Page.

### Our County Ticket.

The ticket nominated by the Republican Convention on Saturday last, will be found at the head of our columns. We point to it with pride, as one of the best tickets ever presented to the people of Highland for their support.

Mr. COLLINS, the nominee for Representative, is too well known to his fellow-citizens, to need an introduction. His ability, integrity and superior qualifications for the office, will not be questioned, even by his opponents. If elected, no one can doubt that he would be a faithful public servant, and reflect honor upon the county. In consenting to be a candidate, contrary to his declared wishes, he has yielded his private interests for the good of the cause, and for so doing deserves the warm approbation and support of every true Republican.

Mr. BARRERE, our candidate for Probate Judge, is also known to the people of the county, as one of our best citizens, who has heretofore been honored with places of high trust, and has always discharged his duty with honor to himself and his constituents. A better selection for the responsible office of Probate Judge could not have been made.

Mr. STEVENS, the present worthy Clerk of our Court, has filled that arduous position so acceptably to the public, that he was re-nominated without opposition, and we hope the people will regard their own interests by re-electing him.

With Mr. HUGHEY, the candidate for Sheriff, we are but slightly acquainted, but what we know of him impresses us favorably, and those who know him best endorse him as well qualified, and in all respects worthy of support.

Mr. ROTHROCK, the present Prosecuting Attorney, also received the merited compliment of a re-nomination without opposition. He has served the people faithfully, and they should retain him in their employ.

For the responsible office of Treasurer, our townsman, Mr. JAMES DILL, was selected, and to all who know him it is unnecessary to say that a more judicious, responsible, and excellent man could not have been chosen. He has been a successful merchant of this place for many years, and has established his reputation as a skillful, correct and upright business man. The people need not fear to trust their money in his hands.

Mr. VANPELT, the candidate for Recorder, is a young man of excellent character and qualifications, and would make a good officer.

Mr. CONARD, our candidate for Commissioner, is an honest, intelligent farmer, who is esteemed and respected wherever he is known. Our readers have a pleasant and profitable acquaintance with him through his instructive contributions to the "Farmer's Department" of the News, over the signature of "Uncle Ben." If elected, the interests of his fellow-farmers would not suffer from any neglect of duty on his part.

Mr. LUCAS and Mr. VANWINKLE, for Infermary Director and Coroner, are both old and well-known citizens, well qualified for their respective places, and will add to the strength of the ticket.

With a ticket composed of such men,

in the field, every good Republican should feel stimulated to use all honorable means for their success. We believe that with proper efforts, our whole ticket can be elected. At all events, it is worth the trial, and if we make it and fail, we shall at least know that we have done our duty, and need not reproach ourselves for the result.

### Republican State Convention.

This body met in Columbus on Wednesday last week. It was very largely attended, and its proceedings were marked by the greatest harmony and zeal for the success of the cause.

The feeling in favor of Gov. CHASE as the standard-bearer of the party in the coming contest, was so strong and unanimous, that he was re-nominated for Governor by acclamation.

Judge MARTIN WELKER, of Wayne county, was nominated for Lieut. Governor, MILTON SUTLIFF, of Trumbull county, for Supreme Judge, ALFRED P. STONE, of Franklin, for Treasurer, A. P. RUSSELL, of Clinton, for Secretary of State, and JACOB BLICKENSCHER re-nominated for Board of Public Works. This is a strong ticket, and will receive the hearty support of the Republicans throughout the State.

We have not room this week for the resolutions passed by the Convention, but will give them hereafter.

### The Republican Candidates.

The Cleveland Herald says:

The candidate for Lieut. Governor, Judge Martin B. Welker, is a resident of Wooster, a man of a high order of talents, and possessing, in a marked degree, a personal popularity along the backbones of the State.

Milton Suttill, the candidate for Judge of the Supreme Court, is a resident of Warren, Trumbull county, an able lawyer, an upright man, and one in whose hands the important interests of suitors can be placed with full assurance that integrity, ability and industry will mark his deliberations and govern his decisions.

The selection of A. P. Stone for Treasurer is in accordance with the wish of the great mass of the people. Mr. Stone is the present Treasurer of the State, having received the appointment from Gov. Chase upon the coming to light of Mr. Gibson's dereliction from duty.

The candidate for Secretary of State, Mr. A. P. Russell, resides at Wilmington, in Clinton county. Mr. R. has been a member of the House of Representatives, is a gentleman of great moral worth, of admirable business capacity, of most agreeable manners, and is entitled to a hearty and undivided support from the friends of the Republican cause in Ohio.

### S. O. Byrd, Esq.

The subject of note from the gentleman above named, was written some two or three weeks since, as its date indicates, and sent to us, for publication; but at the solicitation of some of his friends it was withheld from the public without his knowledge or consent. We give this explanation to prevent Mr. P.'s position from being misunderstood.

For the News.

Mr. J. L. BOARMAN—I see in your paper of this week, that I am announced as a candidate for the Legislature, at the ensuing election. Such announcement has been made by some friends, entirely without my knowledge or consent; and while I am thankful to those persons for this mark of their confidence, I must decline being a candidate for any office. My own private affairs require my entire attention and forbid that I should participate in politics.

Very Respectfully, S. O. BYRD.

Sinking Spring, Aug. 1, 1857.

### The Treasury Defalcation.

The committee appointed to investigate the Treasury defalcation have made their report. It is published in the Cincinnati Gazette of Tuesday, and fills six or seven columns of that paper. It is very lucid in its statements, and bears evidence of having been prepared with great care and accuracy. The committee arrived at the conclusion that Bredin stole the money, and Gibson concealed the theft.

We shall either publish the report in full or give copious extracts from it in our next issue.

### The Lancaster Wheat Drill.

Mr. THROCKMORTON, the Agent for this well-known and popular machine, arrived in town last week, and is now receiving orders for Drills from the Farmers of this county. The fact that this Drill has been practically tested by many of our farmers during the last two years, and has given satisfaction in every instance, so far as the Agent has heard, speaks strongly in its favor. Some improvements have been made in the machine since last year, which render its operation still more efficient. We refer to those who are interested in the matter to the advertisement in this paper, in which the claims of this Drill are more particularly set forth.

Farmers wishing to examine the Drill can do so by calling on W. H. GLENN, at the Railroad Depot.

### The St. Paul Times of the 16th

explains the revolutionary proceedings of the Locofoco minority in the Constitutional Convention thus: It says that instructions have been received from Washington (to bring in Minnesota as a Democratic (pro-slavery) State if possible; if you cannot do it, prevent her from coming in at all, and we will help you.) That's the talk.

The Chicago Tribune says that there is an unusual mortality among the children of that city at the present time.

Since the annunciation of the Dred Scott decision by Judge Taney, and the proceedings before Judge Leavitt and U. S. Commissioner Newhall in the slave hunt cases in Clark and Champlain counties, three distinguished ex-Judges of the Supreme Court of Ohio, viz: Judge Warden, Judge Caldwell and Judge John A. Corwine, have openly denounced the correctness and the policy of such laws and such proceedings. They were always "Democrats" when that term meant something more than it does now; for as now construed and noted upon, it means the hunting of negroes and the suppression of liberty.—In a word, it is the rankest kind of the rankest federalism.

We have no doubt that these gentlemen will eventually act with the Democratic Republican party, because they are not men who can be suffered to remain long in a neutral attitude when great principles are at stake, and the old landmarks of Liberty are being lost sight of by our federal rulers, and their office-holding and office-hunting cohorts. The questions now growing daily in magnitude and approaching the full solution are, shall Slavery or Liberty be the rule of our government? Shall the reserved rights of the States be trampled under foot like dried stubble by the federal administration, or shall that old Democratic principle be preserved in the government of our country?—Men who love Liberty and reverence Justice must join the hosts who now rally around the Republican standard.—State Journal.

### The Crops of 1857.

It is estimated that the four States—Kentucky, Ohio, Indiana and Illinois,—will produce sixty-eight millions of bushels of wheat in 1857, leaving a surplus, over ordinary consumption, of thirty-seven million eight hundred thousand bushels. The total production of wheat for the Union, is estimated at 180,000,000 bushels. The gain in the production of 1857 over that of 1855 is estimated at \$255,000.

Such immense crops must furnish business for Railroads. The old wagons cannot carry them all to market.

### "Strictly Accountable."

The Locofocos of "Old Wayne," at their recent County Convention, passed strong resolutions respecting matters and things politically. They declare that they will hold the Republicans "strictly accountable for the stupendous Treasury swindle." This is very pleasant and highly satisfactory. Let us state the case. These very Locofocos elect a man Treasurer of State; this man steals all the money; they try to re-elect him; he is defeated; Republicans come into power; they ascertain that this Locofoco man has stolen some six or eight hundred thousand dollars of the people's money; have him indicted for the crime and he runs away to escape arrest; and so matters stand when the "Democracy of Old Wayne" meet in caucus and settle the matter—cut the Gordian knot by passing a resolution that they will hold the Republicans "responsible for the stupendous swindle" committed by their own man whom they had put in office! Great men, these Wayne Locofocos.—Ohio State Journal.

### The National Era says, with

truth, that "one good Republican newspaper read for a year in the neighborhood, will produce far more fruit than a hundred dollars' worth of documents spasmodically circulated during an election contest."

The New York Tribune has the sale of Fort Snelling, Minnesota. "The reservation covers eight thousand acres of beautiful land at the junction of the Mississippi with its most important tributary north of the Illinois, the inevitable site of a future city, and worth at least \$100 per acre now, or \$800,000 in gross, which sum we believe it would have brought if duly advertised and put up in lots at auction. Besides the land there are the fort and extensive barracks, stables, &c., which have probably cost the Government not less than \$50,000. This immense property, rapidly augmenting in value, has been privately disposed of for the beggarly sum of \$90,000, only one-third of which was paid down! There is a clear, unmitigated Galphimism of at least three-quarters of a million dollars, and whoever got the liberty to sell engrafted on the appropriation bill knows who made the money." All the honest men in the country will join the Tribune in the interrogatory following:

"Will the President—who has never been suspected of making any more out of an office than its salary—have this matter thoroughly ripped up?"

The War Department and Indian Bureau have reports which show that there are general Indian troubles, extending from the Arkansas line to Ft. Ridgely. A call for several regiments of volunteers will probably be issued.—A large force of regular troops will be kept in Kansas.

Reports have been coming to us through the press of the North-west to the effect that Bloomington, Iowa, was consumed by a conflagration. We learn by the Chicago papers that there has not been any such fire, and that the story is a hoax, some foolish fellow taking pains to get up an extra in a country Iowa paper, to disseminate his silliness and alarm decent people.—(Via Con.)

### The Atlantic Telegraph.

The probability that the telegraphic fleet will be successful in a few weeks in laying down the sub-marine cable, is stimulating public curiosity to a high pitch.

"It has been determined," says the Journal of Commerce, "that the first message across the ocean, in case of success, should be, 'Glory to God in the highest, and on earth peace, and good will toward men.' That will probably be followed by Queen Victoria's compliments to our President, and after his reply, the line will be open to the public for messages of not more than twenty words, at fifty shillings the message, or say 62½ cents a word!"

### Ohio Wool.

The Wool Clip turns out very large, and bids fair to bring a profitable return to the owners. From the most reliable information which can be procured from persons who have traveled through the wool-growing districts of Ohio, the dealers are satisfied that the aggregate clip of this year will exceed that of 1856, by three millions of pounds. A large part, if not all the wool, has now passed from the farmer to the merchant, and a considerable portion into the hands of the buyers for the New York market, and eastern manufacturers. The prices paid for a great portion of the wool crop range from forty to fifty cents, and in some of the best districts 55 and 60 cents have been paid. Besides the increase in the number of fleeces, the shearing occurred a month later this year than last, and the increase of the growth of wool during this time affords an increase of 8 per cent. to the ordinary clip.—E.

A PLEASANT SURPRISE.—A clergyman in Cincinnati, who was just about starting East for his summer vacation, was called upon by a lady at his house, who presented him in behalf of some of the ladies of his congregation, an elegant fruit basket, which he supposed contained some delicacy for his palate. On opening it after she was gone, he found a tastefully wrought purse, containing five hundred dollars in gold.

### An Important Case.

The Grand Jury of Prince William county, Va., have found a true bill against John Underwood, for maintaining by speaking that "an owner has no right of property in his slaves," &c., and he has been held to bail in the sum of \$500 for his appearance at the November court. The Brentsville Journal says:

This case has created the most intense interest and excitement, being the first case of the kind that has ever occurred in our county. The fact that Mr. Underwood is a justice of the peace for this county, has tended in no small degree to add to the excitement, and has called forth violent expressions of feeling in regard to the matter.

The old-fashioned "Declaration" does not seem to be popular doctrine in Illinois. We copy in illustration the following paragraph from the Charleston (Coles co., Ill.) Courier:

On the 4th of July, ten or a dozen men collected in a group, when Mr. Harr read the Declaration of Independence. When he came to that place which speaks of all men having been created equal, they said "it was a d—d Abolition document, and that Stephen A. Douglas was too good a Democrat to write such stuff!" They walked off, cursing the Abolitionists.

### New York Cattle Market.

#### LANCASTER WHEAT DRILLS

#### Come at Last!

I WOULD respectfully announce to the Farmers of Highland, that I have brought a few more of these excellent Lancaster Hillsboro Drills. Those wishing to obtain Machines for their Fall Sowing, will do themselves and us a favor by ordering soon, as we are confident we shall be unable to supply the unprecedented demand this year for them.

These Drills were extensively circulated through your county last Fall, we having sold fifty-five of them. We need but to refer you to any who have used them for a recommendation. Our Drills have all the improvements of the day, being improved in some respects over those sold last year. The hose are made much heavier at the point, obviating the difficulty of sometimes breaking them. This is an essential item in using them among rocks, roots and stones. Persons selecting themselves a Drill, will do well to examine our machines in particular, as the only impediment to their general use, has been the danger of the hose or teeth breaking at the point where the rivet fastens the point to the casting.

The Wright & Russell Drill of Lancaster, is one of the foremost Drills in the catalogue of State and County Fair Exhibitions, having been awarded the highest and most valuable premiums and diplomas, given to this class of Agricultural Machinery. We have this Drill Drilled to be composed of good material, and to saw Wheat, Rye, Oats, Barley, and at the same time Sow Grass Seed of any description. It is also more simple and easier to manage than was the same Drill last season, being adjusted simply by means of a thumb-screw inserted at the end of the box.

We invite all who wish to procure an article of this kind, to examine our Drills, before purchasing elsewhere, as we are certain time and money will be saved in so doing.

Mr. Wm. H. Clark, at the Railroad Depot, Hillsboro, will be ready to serve all calls in his absence, and when here, can be seen at the Elliott House.
